About JB Cocoa

JB Cocoa is a global producer of premium cocoa ingredients.

Established since the 2000s, JB Cocoa is known for our quality and service.

Our manufacturing facilities are state-of-the-art, equipped with the latest technology in cocoa processing and designed to be energy efficient.

From our beginnings in Asia, JB Cocoa's operations now span the Americas, Europe and Africa. We are present in more than 65 countries, and our worldwide customers that range from international trade houses to end users.

JB Cocoa is part of JB Foods Limited Foods, which is listed on the Singapore Exchange (SGX:BEW).

Our Products

A complete offering of cocoa mass, butter and powder

We produce cocoa mass by carefully blending cocoa beans of different origins, and offer various cocoa mass to meet customer requirements.

Cocoa Mass

Cocoa Butter

A pure and stable fat that is produced from pressed cocoa beans, our cocoa butter offerings include natural, deodorised, and deodorised and degummed cocoa butter.

Cocoa Powder

We produce a wide range of premium cocoa powder of varying PH value, application and fat content, and of varying colours and aromas, customisable to customers' specifications.

Sustainability

We are committed to sustainable manufacturing, sustainable cocoa and cocoa sourcing, and are dedicated to a thriving and transparent cocoa supply chain.

We believe in striking a balance between growth and the care for our environment, including the development of people and communities.

We strive to be a responsible, ethical and transparent corporation in the countries and regions that we operate.

Our commitment to sustainable manufacturing extends beyond carbon accountability and developing renewable energy solutions to enhancing work place safety and health.

Our Global Presence
